

Why Legal Professionals Choose ABBYY Products

FineReader's desktop document conversion is ideal for day-to-day legal document processing

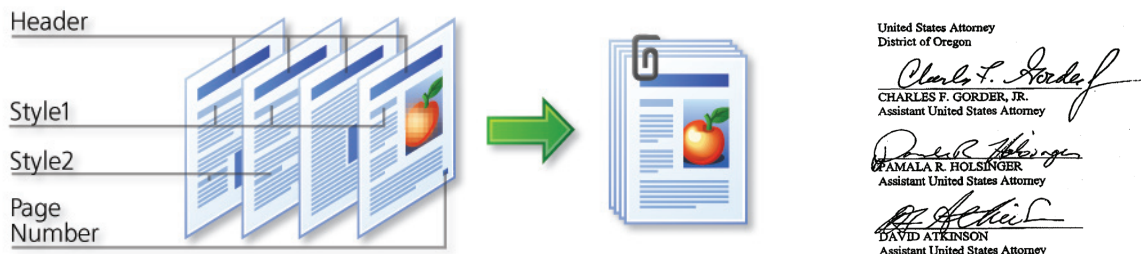

FineReader 9.0, the latest version of ABBYY's award-winning OCR product line, allows legal professionals to quickly and effortlessly convert paper documents, photographed images and PDF files into editable and searchable formats.

- ✓ Converts paper and image to a fully **searchable** format with optimal accuracy, layout retention and file compression
- ✓ Reads **multilingual** documents with the widest language support (**184**) in one package
- ✓ Supports the latest **secure PDF** settings
- ✓ Supports **PDF/A** for long-term archiving

The ideal Tool for Legal Professionals

FineReader 9.0 automatically identifies the specialized elements and formatting found in legal documents. For example, the program automatically locates and **preserves signatures** in contracts and recognizes and reproduces line numbers in **pleading documents**.
