The Intelligent OCR and PDF Conversion Chosen by Business Organization

ABBYY FineReader 9.0 Corporate Edition, the latest version of ABBYY's award-winning OCR, is designed for the corporate environment. It converts images and PDFs into editable and searchable files with excellent accuracy and layout retention. The first OCR built on revolutionary ADRT™ technology, FineReader analyzes the document as a whole and recreate files with native MS Office formatting elements and style in its original logical structure. With its robust network capabilities and collaboration features, FineReader makes it easy to extract and reuse information for editing and archiving purposes.

Key Features

- **Enhanced! Superior recognition accuracy and layout retention** — Average 37% accuracy and layout retention improvement.
- **NEW! Adaptive Document Recognition Technology (ADRT™)** — “See” the entire document and recognize text, column, tables, headers, footers, page numbers and other formatting elements.
- **Enhanced! CameraOCR™** — 2nd-generation CameraOCR features one-click conversion from snapshots into editable formats.
- **Smart and fast PDF conversion with security support** — Extract information from PDFs into editable files. Paper documents can be electronically archived as searchable PDFs, including PDF/A.
- **NEW! One-click QuickTasks™** — Automate popular OCR tasks with a mouse click from Windows's Start menu or Windows Explorer.
- **Network support and collaboration**, including automation network installation, networked MFPs support, distributed OCR processing
- **Enhanced! Hot Folder & Scheduling** — Monitor designated folders and mailboxes for immediate or scheduled document processing.
- **NEW! Intelligent Results-Driven™ interface** — Interactively guide user to the best results with the minimum number of steps.
- **NEW! Multilingual OCR with automatic language detection**
- **NEW! Support Multi-core processor** — Boost processing speed up to 3.2 times in dual-core systems.
- **Bonus! ABBYY Screenshot Reader** — instant OCR from the screen.
- **NEW! Windows Vista and Microsoft Office 2007 support.**

Key Benefits

- **Accuracy** — Average 37% improvement. No retyping or reformatting
- **Fewer Clicks, Faster Results** — Up to 40% fewer mouse clicks
- **Automation** — Unattended OCR without launch the program
- **Productivity** — Review results while process continues
- **Cost-Effective** — Only pay for the number of simultaneously usage
- **Free Technical Support** for all registered users!
